UDistrict Options Reviewed with Community

ABBOTSFORD October 15, 2015 – Abbotsford residents and UFV students will have their first opportunity to review and provide input into two planning scenarios at two interactive community sessions taking place today.

In April the City of Abbotsford and the University of the Fraser Valley (UFV) partnered to develop a UDistrict Neighbourhood Plan and a fully compatible and integrated UFV Abbotsford Campus Master Plan. Beginning with the original UDistrict Vision and Campus Master Plan, this integrated approach will deliver two effective plans for creating a vibrant and sustainable neighbourhood while managing growth and redevelopment.

Today's community information sessions are opportunities for residents, students, and interested community stakeholders to consider plans and provide real input to neighbourhood planning options.

Community involvement and collaboration are key in the development of the UDistrict and the scenarios being presented at these sessions are a direct result of feedback received in previous community events held in early 2015.

Once complete, the Neighbourhood and Campus plans will provide a detailed and coordinated roadmap for future development and ensure the UDistrict is a thriving place to live, work, play and learn.

Residents can find more information at: www.udistrictabbotsford.com.
