## Abbotsford Launches a New App for Curbside Collection

**ABBOTSFORD – February 17, 2016** – The City of Abbotsford has developed a mobile waste app that will make finding information on curbside collection easier and more convenient for residents, announced Mayor Henry Braun today.

The smart phone app called ‘Abbotsford CurbCollect’, will allow residents to schedule weekly reminders for their pick-up days, view a digital collection calendar, receive service notifications and access an online disposal library called the Waste Wizard, which allows residents to look up the correct way to dispose of a variety of materials.

“We anticipate that this will be a service many residents will use,” said Braun. “Garbage and recycling information is one of the most frequently accessed topics on our website, and this new app will give residents the ease of having information about their pick-up schedule right at their fingertips.”

The Abbotsford CurbCollect app is now available as a free download from the Apple App Store or on Google Play.

More information about the City’s Curbside Collection program is available at [www.abbotsford.ca/collection](http://www.abbotsford.ca/collection).
