**City Permit# is a valid permit # issued by the City for construction, building, filming or special event*

Permit fees are regulated by the Fees and Charges Bylaw, 2006, 2669-2017 as follows:

Hydrant Use Permit Fees:

- Hydrant use permit.....\$60.00 per day
- Extension to duration.....\$60.00 per day
- After hours service call.....\$200.00 each call

Water Rates:

The permit holder will be invoiced for the water usage once the project has completed based on current water rates.

The permit holder is responsible for:

- coordinating their requirements with the Operations Division (City of Abbotsford)
- supplying their own hoses
- **dechlorinating at point of discharge if any water is likely to flow into the storm sewer system or ditches**

City staff is responsible for:

- supplying and installing a backflow device
- if deemed necessary, supplying and installing a water meter
- turning on and off the applicable hydrant and installing the equipment by 8:30am and removing it by 4:00pm on the requested days

Notes:

- **unauthorized valves or other equipment attached to the hydrant will be confiscated and shall become the property of the City**
- if service is required after normal working hours or on weekends additional charges will apply
- repairs and replacement of damaged equipment will be billed to the permit holder

The completed application should be submitted by email engops-info@abbotsford.ca to the City of Abbotsford's Operations Yard.
