Flowers • Trees • Shrubs • Planters

AUTOMATIC WATERING between 5 – 9 am

ON ANY DAY

MANUAL WATERING by hand or drip/micro spray irrigation

AT ANYTIME

**Edible plants can be watered
as needed, at anytime.**

Water-smart Reminders

- All hoses must be equipped with a spring loaded shut-off device.
- Watering of flowers, trees, shrubs and vegetables may be carried out using a hose with a spring loaded shut-off device, water container, or drip/micro spray irrigation at anytime in Stage 1.
- Remember to check online at ourwatermatters.ca to see what Stage is in effect. Water Restrictions begin May 1 each year.
- Use a rain barrel to collect rainwater to water plants and gardens through the summer.
- Choose waterwise plants like drought-tolerant turf grasses. Check out ourwatermatters.ca/educational-resources for waterwise planting tips.
- Remember that healthy lawns only need 1 inch of water a week.
- Mow high (leave grass at least 3 inches in height) and leave grass clippings on the lawn to keep moisture in!
- Clean off driveways and sidewalks with a broom, not the hose.
- Wash your car on the grass and give the grass a drink at the same time!
