GET READY for winter

The City of Abbotsford maintains and manages over 900 km of paved roadways.

Our Snow and Ice Control program maintains the key travel routes in our city during snowfall events and icy road conditions.

Our goal is to ensure residents can travel safely on City roads during winter conditions.

During heavy snowfall we will keep working on the priority routes until they are safe for travel. This means second and third priority residential streets may not get cleared right away.

Find out more about how we are prepared for winter, our road clearing priority routes, and how you can be ready for winter too.

ABBOTSFORD

Let's work together to be a **winter-safe community!**

- Please clear your sidewalks of snow and ice. Residents and business owners are responsible for clearing the sidewalks and public accesses adjacent to their property. Nobody wants to slip and fall! Contact **Bylaw Services** for more information at **604-864-5512**.
- **Please stay off frozen lake surfaces at local parks. They are not safe for skating or ice hockey.**
- Try not to park on the road during a snowfall. We can clear your streets more efficiently if there are no parked cars on the road. Please remember that we don't start on residential streets until our first and second priority travel routes are safe. If it keeps snowing and snow is accumulating, we will keep clearing the first priority roads.
- **We have a lot of parks! Parking lots may be closed during heavy snowfall events. Pedestrian walkways are the top priority for snow and ice removal. We do our best to keep the Mill Lake Park walkway clear, but the boardwalk may remain closed to ensure public safety.**
- Fields with ice or standing water on them are not safe for play. Please check the field status on the City's website before the game at **abbotsford.ca/fieldstatus**. It is updated regularly during the winter.
- **Stock up on snow clearing supplies! Salt and snow shovels will be sold out fast if we have a lot of snow.**
- The School District clears school property, school parking lots, sidewalks fronting schools and their driveways.
- **Check on your neighbours during cold spells! They may need a "snow angel" to help clear their sidewalk or to get some groceries.**
- Curbside collection may be disrupted during winter weather. The Abbotsford Curbside Collection App is the best source of information about collection-related news. The App is free to download from the App Store or Google Play. A collection advisory is also posted on the City's website at **abbotsford.ca** for collection delays or cancelled service.
