Philosophy: Community > Addiction

- The opposite of addiction is community
- No magic pill, no solo heroics
- Healing = shared program, meals, chores, struggle, belonging,
- Don't got funds? Don't worry we'll figure it out.
- Don't got a ride? Don't worry we'll get you here.

Collaborations and Partnerships

- Organizational cooperation - This!
- Mixed Teams: Street Smarts + Book Smarts = More
- Leadership / Vocational Pathways for residents becoming future workers
- First Nation learning and partnering

Addressing the roots

- Addiction is also about trauma, isolation, identity collapse.
- We eventually focus on the internal + relational wounds
- Strengthening after-care, clinical and support integration, housing stability

Vision for the future

- Coordinated alignment with community partners
- Expanding vocational pathways
- Preparing men for meaningful participation in work + life
