[Consolidated and printed by authority of the Corporate Officer under section 139 of the *Community Charter*. Includes amendment bylaws 3434-2023 and 3633-2025. Last amended June 24, 2025]

WHEREAS pursuant to the *Local Government Act*, the council may, by bylaw, impose development cost charges;

AND WHEREAS development cost charges may be imposed for the purpose of providing funds to assist the municipality in paying the capital costs of providing, constructing, altering, or expanding sewage, water, drainage, fire protection, police, highway and solid waste and recycling facilities, other than off-street parking facilities, and providing and improving park land to service directly or indirectly, the development for which the charges are imposed;  
(B/L 3633-2025)

AND WHEREAS the council has deemed the charges imposed by this bylaw

- (a) are not excessive in relation to the capital cost of prevailing standards of service in the municipality,
- (b) will not deter development in the municipality,
- (c) will not discourage the construction of reasonably priced housing or the provision of reasonably priced serviced land in the municipality, and
- (d) will not discourage development designed to result in a low environmental impact in the municipality;

AND WHEREAS the council has considered the charges imposed by this bylaw in relation to future land use patterns and development, the phasing of works and services and the provision of park land described in the *Official Community Plan Bylaw*, and how development designed to result in a low environmental impact may affect the capital costs of sewage, water, drainage, and roads, and providing and improving park land;

AND WHEREAS in the opinion of the council, the charges imposed by this bylaw are related to capital costs attributable to projects included in the municipality's financial plan and long-term capital plans, and to capital projects consistent with the *Official Community Plan Bylaw*.
