

Glass Bin TIPS

Place your glass bottles and jars out on the same day as your recycling cart and help reduce landfill waste!

Glass bins are simple to use. Here are some quick guidelines:

- ✓ Rinsed glass bottles and jars only.
- ✓ Lids should be removed and placed in recycling cart.
- ✓ Place bins out before 7am. Bins are picked up separately from carts.
- ✓ Place bins beside carts with 1 metre distance in between.

REMEMBER!
No broken glass,
vases, drinking
glasses, mirrors
or ceramics
allowed.

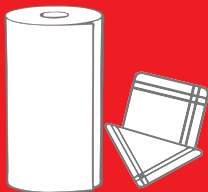

Unacceptable material in recycling carts creates unsafe conditions for workers, causes damage to sorting machines, and diminishes the quality of material and the ability to recycle it.

Please sort and prepare your recycling properly and keep these items **OUT** of your cart!

PAPER TOWEL & NAPKINS

These used paper items go in the **green compost cart** along with food-soiled paper plates and disposable wooden utensils.
